Submitted to His Highness.

These papers relate to the action to be taken for the arrest and internment of all adult male hostile aliens found within the State on the outbreak of war.

H The Residency stated some time back that a great many enquiries are being received from the Government of India relating to foreigners, and that in order to save unnecessary correspondence and time, and co-ordinate the work of the police in the State as well as in the C. & M. Station, it would facilitate matters if the Inspector-General of Police in Mysore and the Commissioner of Police, C. & M. Station were permitted to correspond directly on matters relating to routine enquiries, and action to be taken regarding aliens.

X The Inspector-General of Police has now reported that in view of the imminence of war, instructions have been issued to all the District Superintendents of Police regarding the arrest and internment of enemy subjects on the lines of the instructions issued by the Government of India. He reports also that steps have been taken to forestall any possible attempt at sabotage on key points, such as power stations, etc.

The papers are submitted for His Highness's gracious perusal..

These papers relate to the action to be taken for the surveillance of Italian subjects within the State and their arrest in the event of war with Italy.

B. The Residency have stated that instructions for unobtrusive surveillance of Italian subjects should be issued and steps should be avoided which could be construed by Italians as directed against their neutral rights. The Government of India have decided that, in the event of war with Italy, all male Italians over 16 years of age, other than priests and missionaries unless there is definite reason to suspect them of prejudicial conduct, should be arrested and interned, and that persons of Italian origin and sympathies, but claiming British Nationality solely by reason of birth in British territory, should be arrested and interned under Rule 129 of the Defence of India Rules.

The additional action considered desirable by the Govt of India is as follows:-

My dear Kesavaiengar.

The Government of Mysore will appreciate that during the present European situation it is essential that the Government of India should have full and correct knowledge of the activities of potentially enemy aliens throughout India. This field of Intelligence is being developed in British India, the methods employed being censorship in the case of known suspects, the careful and systematic examination of the press, the use of agents (carefully selected on account of known contacts) and the employment of unobtrusive methods of surveillance. It is proposed also that (1) Provincial C.I.Ds should employ small staffs who will give their whole attention to the alien problem. The information which reaches the Government of India regarding aliens in Indian States is at present negligible.

2. The Resident much appreciates the support and co-operation that has been forthcoming from the Mysore State when he has made requests for such intelligence and he would now ask the Government of Mysore to examine whether they can develop their intelligence work on (2) aliens living in or passing through the State and send him from time to time any information of interest that may come to light whether specific requests have been made by this Residency or not.

3. What the Government of India want to know is: everything about every alien[1], about every person who[2] is friendly with aliens and about every person who[3] was at one time an alien although he or she may now be a British or State subject by marriage or naturalization. By the word alien in this connection is meant first and foremost Italians, Germans and Japanese, but at the same time it must be kept in mind that in war malevolent neutrality can often be as dangerous as open hostility.

4. It is appreciated that at present there are certain difficulties in finding a legal cover for police enquiries. However when the Government of Mysore have passed the Foreigners Registration Act

This is much needed in these times

Act as they have been requested to do by this Residency in my letter No.F.62/1939 dated the 26th May 1939 their police will have legal cover for all reasonable enquiries. Incidentally the Government of India are very anxious that States should adopt the same standard of strictness in regard to exemption under the new act as will be applied in British India.

5. The Resident will be most grateful if the Mysore state would consider the development of their intelligence in respect of potentially hostile aliens within the State on the same lines as in British India and would be very grateful for the same co-operation and help in this matter as they have always given in the past. They will appreciate of course that the whole question should be treated as strictly secret.

Yours sincerely,

Hewlett.

Dated Bangalore, the 23rd June 1939.

Sir,

I am directed to say that a great many intelligence enquiries are now received from the Government of India, Intelligence Department, which relate both to the Mysore State and the Civil and Military Station of Bangalore. These enquiries mainly relate to foreigners within the State and also occasionally to particular Indians of communist leanings, etc. Under the present procedure this Residency obtains the information so far as the Civil and Military Station is concerned direct from the Commissioner of Police, Civil and Military Station, Bangalore, and from the Government of Mysore by correspondence with the Chief Secretary. The number of such enquiries is increasing and the majority of them are not of any general importance. The correspondence with the Government of Mysore in regard to these enquiries takes up a considerable time in this Residency and the Resident would, if the Government of Mysore see no objection, like to initiate a procedure which would save work both in the Residency Office and in the Chief Secretariat of the Government of Mysore. He therefore

suggests

suggests that these references should be classified and dealt with in the Residency office as follows:

(1) Matters which are likely to be of particular interest to the Government of Mysore:

These will be dealt with as at present.

(2) Routine enquiries and requests for intelligence:

This Residency will send papers to the Commissioner of Police, Civil and Military Station, who will obtain the required information direct from the Inspector General of Police, Mysore. He will no doubt send copies of information supplied by him to the Government of Mysore for their information.

The Resident will be glad to know if the Government of Mysore agree to this procedure.

It will be convenient also if this arrangement could be held to cover the periodical information which the Government of Mysore have been requested to send in my demi-official letter No. D.447/39/C, dated the 15th June 1939.

My dear Mr. Kesavaraja Iyer

Please refer to your Secret demi-official letter No. P.672 dated July 3, 1939, forwarding for information and guidance copies of certain demi-official letters from the Residency regarding the arrest and internment of hostile aliens on the outbreak of war.

In view of the imminence of war, I have sent instructions to all Superintendents of Police, with a view to ensuring, immediately after the outbreak of war, the arrest and internment of all adult male enemy subjects found within the borders of the State, and I now enclose copies of these instructions for the information and formal approval of Government.

The instructions are similar to those received from the Government of India regarding the arrest and internment of enemy subjects in the Civil and Military Station area and communicated by the Residency to Mr. Green and by him to me.

Necessary steps are also being taken to forestall any possible attempt at sabotage on key points, such as Power Stations, etc.

Office of the
Inspector-General of Police in Mysore,

in charge of Districts.

SUBJECT: Control of Foreigners in ~~Sexx~~. War.

In continuation of my Secret Circular letter No. S.B.84/39-40 dated August 25, 1939, I now enclose for information and guidance extracts from Part IV (Paragraphs 13 - 19 inclusive), and Part VIII (Paragraph 25-C) of the Government of India's "Provisional Instructions for the Control of Foreigners in War", dealing with the treatment of enemy subjects left at liberty after the outbreak of war.

Superintendents of Police are reminded that, in addition to the checking up and surveillance of all adult male potential enemy subjects, now is the time for drafting orders detailing the police parties required to make the necessary arrests of such persons on the outbreak of war.

The preparation of lists of fire-arms, wireless licenses and motor vehicles held by potential enemy subjects should also be completed without further delay. A record of the registered numbers of motor cars or cycles possessed by such persons will be most useful if any of them should attempt to leave the State with a view to evading arrest.

It will also be observed (Rule 20 (6) of the Government of India's Instructions) that enemy subjects (i.e. of either sex) left at liberty after the outbreak of war may not have telephones under their control. A record

A record of the private telephone numbers of all potential enemy subjects should therefore be maintained so that arrangements may be made for the numbers to be disconnected as soon as war has broken out.

N.B. (1) On the outbreak of war, Superintendents of Police will receive no separate specific orders for the arrest of all adult male enemy subjects except my telegram " Expedite indents for muskets, revolvers and ammunition". The arrest of all adult male enemy subjects of the countries specified in the telegram (muskets = Germany, revolvers = Italy, ammunition = Japan) should be effected immediately that telegram is received.

(2) The preliminary lists to be despatched to the appropriate Military Commander (vide paragraph 25 A (1)(c) of the Government of India Instructions), will be prepared and sent by this office, after consultation with Superintendents of Police, if necessary. The lists required by paragraph 7 of those Instructions will of course be prepared by Superintendents of Police on their own responsibility, and sent with the prisoners.

SECRET.

FURTHER EXTRACTS FROM PROVISIONAL INSTRUCTIONS FOR THE CONTROL OF FOREIGNERS IN WAR.

PART IV.
TREATMENT OF ENEMY SUBJECTS AT LIBERTY.

13. Classes of enemy subjects who may be at liberty under civil control.- Enemy subjects at liberty and under civil control will fall into four classes-

(a) consular officers (see paragraph 2 (1));
(b) women;
(c) children under sixteen years of age; and
(d) individuals who may be especially exempted by the Central Government from initial arrest and internment or released after internment.

14. Consular Officers.-

(1) General title to courtesy.- On the outbreak of war consular officers retain no privileges and their official status is automatically terminated. They are nevertheless by customary usage entitled to a certain degree of consideration and, although the grant of permission to leave the country is not governed by any rule of international law, will, except as indicated in sub-paragraph (2), be assisted to return to their countries. The times at which and the ports or other places by which they will be permitted to depart, however, will in all cases be regulated by the requirements of defence.

(2) Extent of immunity from internment, etc.- The claim to the courtesy which it is customary to extend to consular officers will, however, be - forfeited if a consular officer engages in activities outside the scope of his consular duties. It is a courtesy extended to him solely qua consul and not as a right pertaining to his person. Should a consular officer engage in suspicious activities he may be interned under the Defence of India Ordinance as an individual suspect irrespective of his nationality or under the Foreigners Ordinance as an individual foreigner acting in a manner - prejudicial to the defence of India. (There is in this connexion considerable evidence that the activities of certain consular officers both in India and the United Kingdom are not confined to their legitimate functions.)

(3) Applications for departure.- Every application from a consular officer for permission to leave British India will be forwarded through the Provincial Government to the Central Government (External Affairs Department) together with a report whether or not his personal activities, past and present, - make it

make it undesirable in the interests of defence or public order that he should depart. The External Affairs Department will pass orders on every application after consultation with the Defence and Home Departments.

(4) Restrictions prior to departure (or interment).- While at liberty, consular officers will be placed under surveillance and, in common with other enemy subjects at liberty, they will be subjected to restrictions of the nature described in paragraphs 17 to 20.

(5) Consular archives.- Consular archives and records are by custom treated as inviolable. Their transfer to a neutral consular officer will be ~~[illegible]~~ permitted on the outbreak of war but must be effected within forty-eight hours. If a consular officer does not avail himself of this permission, he will be required to lock and seal his official records and will thereafter not be allowed access to them.

(6) Consular premises and offices.- The inviolability of consular archives does not extend to the offices or other premises occupied by a consular officer, and neither his private residence nor his office premises are immune from police visitation.

15. Women and Children.-

(1) Voluntary departure.- Subject to such restrictions on the time and place of departure as may be notified in the interests of military movements, it is not probable that there will be any general embargo on the departure of women and children either before or after the outbreak of war. It is possible, however, that special permits will be required and that permission will be withheld in individual cases (e.g.) in the case of a woman reasonably suspected of espionage. If, however, the enemy State were refusing to allow British subjects to leave, a general embargo on the departure of enemy women and children might be imposed in order to secure hostages for bargaining.

(2) Repatriation.- Subject to the consideration in the last sentence of sub-paragraph (1) it is hoped to repatriate all enemy subjects at liberty, and possibly such internees as are not likely to be of assistance to the enemy, as soon as possible after the outbreak of

war, as it is not desirable that they should be a charge on public revenues or a source of anxiety and labour to the police any longer than is inevitable.

(3) Internment.- Although as stated in paragraph I of Part II, it is not at present proposed to intern enemy women and children as a class, this decision may be modified either before or after the outbreak of war. Meanwhile it is in no way intended to preclude the arrest and internment of any individual whose conduct is suspicious. In any such case, the police will have authority to arrest and detain the suspect. When the arrest is made in circumstances which constitute a prima facie case for prosecution for a contravention of the Defence of India Ordinance, the ordinary procedure relating to under-trial prisoners will apply and no special directions are necessary. Where, however, there is reasonable justification for internment but insufficient material for a prosecution, and arrest is made under the Foreigners Ordinance or the corresponding provisions of the Defence of India Ordinance, the suspect woman or child will be detained, and, pending further instructions, will be confined in the civil jail, a report being made to the Central Government (Home - Department). While in custody, she or he will be treated as an unconvicted prisoner and in no case as a convict.

(4) Maintenance while at liberty.- Male internees will be required to make such provision for their wives and children as they can. Where, however, an internees funds are exhausted, maintenance allowances may be granted for their families at the following maximum rates:-

Rs.80 per mensem for a woman in the towns of Bombay and Calcutta,
Rs.70 per mensem elsewhere, and
Rs.30 per mensem for every child.

Such allowances will be sanctioned and paid by the Central Government to whom all applications and recommendations for their grant should be forwarded through the Provincial Government.

(5) Restrictions pending departure, repatriation or internment.- The general restrictions on enemy subjects at liberty will apply to women and children (see paragraphs 17 to 20).

~~16. General restrictions on all enemy subjects at liberty.-~~

16. Other individuals exempted from or released after internment.- Subject to such special conditions as may be imposed upon exemption from, or release after, internment, enemy subjects not interned will be governed by the instructions in paragraphs 15 and 17 to 20.

17. General restrictions on all enemy subjects at liberty.-

(1) General nature of restrictions.- All enemy subjects remaining at liberty in British India may be subjected to various restrictions-

(a) they may be directed to reside in specified places or
(b) they may be prohibited from residing in specified places, or
(c) they may be required to report their presence periodically, or
(d) they may be forbidden to travel more than a prescribed distance without special permission, or
(e) they may be prohibited from possessing certain articles or from carrying on specified activities or from association with specified individuals or classes of individuals.

The nature of these restrictions is described more fully in the following paragraphs which refer to women as well as men.

18. Restrictions on movements and residence.-

(1) Change of residence.- No enemy subject will be permitted to change his residence without the permission in writing previously obtained of the Registration Officer of the district in which the new place of residence is situated. The intention of this prohibition is to prevent enemy subjects from residing where their presence would be undesirable for reasons of defence or public order and hence, while permission should not be refused merely because the applicant is an enemy subject, it should not be granted without previous consultation with the local military commander.

(2) Reporting presence and movements.- An enemy subject will be required to report his presence at his registered address once in every twenty-four hours to the Registration Officer or such authority as that officer may appoint in this behalf. If he is absent from his registered address for more than twenty-four hours, he will be required to report during every day of his absence to the officer in charge of the nearest police station. The daily reports of absence will be entered -

(a) if the foreigner has a travel permit, in the travel permit in the appropriate space; and

(b) if he has no travel permit, in the Certificate of Registration and will in either case be communicated to the Registration Officer of the district of his registered address.

(3) Restrictions on travelling.- A travel permit will be required by an enemy subject who travels more than five miles from his registered address. The issue of permits will be in the discretion of the Commissioner or Superintendent of Police, who, if advisable, will consult the Registration Officer of the district to which the foreigner proposes to travel. Every permit will be subject to a time limit and will specify the foreigner's name, nationality and description as entered in his Certificate of Registration, the place or places which he is authorised to visit and the purpose of his journey, and will be subject to such other conditions as the issuing authority may see fit to impose. Permits should normally be given in cases only of shown necessity for business, health or family reasons. Permits will not be given for travelling for pleasure or sight-seeing, but, subject to the obtaining of previous permission to a change of residence, should be given for a journey to a hill station for reasons of health. In view of the desirability for restricting the movements of enemy subjects there should be no occasion for the issue of permits in large numbers and it is therefore unnecessary to prescribe and issue a special form of permit.

(4) Restrictions on place of residence.- It may be decided to prohibit foreigners in general or enemy subjects in particular from residing in certain places and areas, in addition to imposing upon them such restrictions as may be enforced under the Defence of India Ordinance in respect of "prohibited places" and "protected areas".

19. Restrictions on employment.- Statutory provision will be made for restricting the employment or occupation of foreigners, and the Central Government may restrict the employment of any foreigner in any occupation which would offer special opportunities for espionage, sabotage and propaganda.

PART II.

INTERNMENT.

2. Class of foreigners to be interned purely as a consequence of war.-

(1) On the outbreak of war all male enemy subjects of and over sixteen years of age, except consular officers, will be arrested and interned under a general order issued by the Central Government. No exemption from this order will be made except by an express direction of the Central Government.

(2) For the purpose of sub-paragraph(1) "enemy subject" means any person not being a British subject or a British protected person who possesses the nationality of a State at war with His Majesty, and, unless instructions are issued to the contrary, includes, in the event of war with Germany, all Austrians, Austrian and German Jews and subjects of the late Czechoslovakian State. It does not, however, include British subjects by naturalisation.

(3) Claims to have lost enemy nationality may be made, but should not be accepted without the fullest proof. Where a foreigner suspected of being or of having been an enemy subject proves that he has a nationality other than that of an enemy State and has renounced enemy nationality he should not be classed as an enemy subject. If he merely produces prima facie proof that he is "Stateless" he should be treated as an enemy subject and a report of the circumstances should be made through the Provincial Government to the Central Government(Home Department).

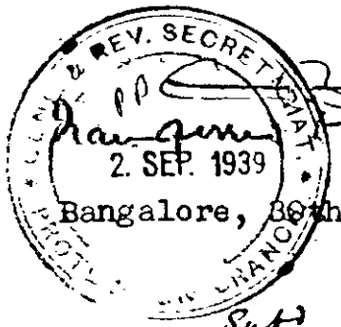
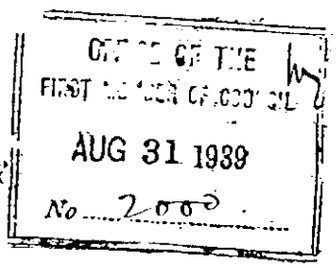
CHIEF COMMISSIONER'S OFFICE W 141-40-9
1939
Dy. No. 169
Secret
Do. No. F-185/1939



Bangalore, 30th August 1939.

1446/P



My dear Kesavadevar,

With reference to our conversation this morning it may be of use to you if I explain further what has happened during the last few days in regard to preparations for action against foreigners.

In accordance with the arrangements made in your letter No.Pol.18 dated the 4th July 1939, the Commissioner of Police, Civil and Military Station, has been keeping in touch with the Inspector General of Police, Mysore, in order to concert any preparatory arrangements which are necessary, but no definite action can of course be taken by him except by orders of the Government of Mysore which will be addressed by this Residency. If any precautionary action has to be taken we usually receive it first in the form of a telegram from the Home Department addressed to the Chief Commissioner of Coorg and only later do we receive information from the Political Department for the purpose of Indian States and the Civil and Military Station. To assist the Police Authorities concerned we inform the Commissioner of Police of any information sent in respect of Coorg by the Government of India which will also affect him and wherever necessary he has been passing this on informally to the Inspector General of Police, Mysore. So far action has been as follows :-

(1) We received a copy of Provisional Instructions for the control of aliens in time of war which gave the Police Authorities material for

preparation of their plans should internment of aliens be required. I understand that a copy of these instructions was informally handed over by Mr. Green to Mr. Peel, and, as I said to you this morning, since a copy is in Mr. Peel's possession, you will be able to see it whenever you wish. I am afraid that at the moment we have no spare copy to send you for record.

(2) We have already sent with my demi-official letter No.F.170/1939 dated the 29th August 1939, certain suggestions for the control of foreigners desiring to leave India. In the Civil and Military Station this is now being legalised by the application of the new Foreigners Ordinance and Order issued under that Ordinance. I doubt whether there is any necessity for the Government of Mysore to issue such an Ordinance as they can do what is required by executive action. When copies arrive I will certainly send you a copy should you wish to have one. At present we have not yet had copies of it.

(3) Under the Foreigners Order, foreigners have been prevented from entering prohibited places (Military Barracks, water works, electric works etc) or being employed in public or military undertakings without permission. Necessary action will be taken now in the Civil and Military Station. The Resident has no doubt that the Government of Mysore have taken all necessary executive action in the State.

Information as to what is being done in British India is given by the Commissioner of Police to the Inspector

General of Police, Mysore, from time to time in order that if he wishes he can make suggestions to you for similar action in the State.

2. The Resident is most grateful to the Government of Mysore for their unstinted co-operation in these very necessary measures and you will no doubt inform me personally if there is any change which you wish in the procedure at any time or if there is any further information which you require. It is quite understood, of course, that this Residency will address you immediately the Political Department request the Mysore State to take any definite action.

Yours Sincerely,

H. Rudra.

No. .... 1317 Dated .. 2nd September 1939
Received 3rd September 1939.

Home Department. Addressed to Chief Secretaries. Repeated to all Provincial Governments including Baluchistan. Your telegram No. 106-C 4 dated September 1st. While Central Government would have no objection to use of Section 110 Code of Criminal Procedure to prohibit German subjects from leaving their residences they consider it preferable to act under Foreigners Order 1939. The following paragraphs are therefore being added to that order as paragraphs 7 and 8 and published to-day in Gazette Extraordinary. Amendment begins.

" 7. Powers of arrest and detention. If in opinion of Civil Authority, it is necessary for public safety so to do, the Civil Authority may arrest any foreigner without warrant and detain him in such manner and at such place as may to such authority appear suitable; provided that the manner of such detention or confinement shall not be more rigorous than / manner in which an arrested person is detained or confined while in police custody under Criminal Procedure Code 1898.

Paragraph No. 8. Powers to impose restrictions on movements etc. The Civil Authority may by order in writing direct that any foreigner shall comply with such conditions

as may be specified in Order in respect of (a) his place of residence (b) his movements (c) his association with any person or class of persons specified in order and (d) his possession of such articles as may be specified in order. " Amendment ends.

Central Government request confidential instructions be issued to Police Officers appointed as Civil Authority to use powers of restriction against German nationals only and power of detention against German suspects only.

Intimation has been received that His Majesty's Government have had German suspects arrested.

BRANCH

S. .B. 84/39-3. Office of the
Inspector General of Police in Mysore
Bangalore, September 4, 1939.

Laws See with comp 115 NS 4/9

To

All Superintendents of Police
in charge of Districts.

With reference to the Note at the end of my Secret letter No. S.B.84/39-40 dated September 8, 1939, I write to inform you that the Foreigners Ordinance (No. I of 1939) and the Foreigners Order 1939, issued by the Government of India under Section 3 of that Ordinance have been published in the Mysore Gazette Extraordinary of the 3rd September 1939, and printed copies will be sent to you in due course.

It should be noted that in the Gazette Extraordinary, the Foreigners Order 1939 issued by the Government of India had been styled "The Foreigners Rules, 1939", but it is probable that the nomenclature will be altered to "The Foreigners Order, 1939" once more. In any case, the Order and the Rules are one and the same thing.

The Government of India have since issued the following amendment to their Foreigners Order, 1939 :-

"7. Powers of arrest and detention. If in opinion of Civil Authority, it is necessary for public safety so to do, the Civil Authority may arrest any foreigner without warrant and cause him to be detained at such place as may to such authority appear suitable; provided that the manner of such detention or confinement shall not be more rigorous than manner in which an arrested person is detained or confined while in police custody under Criminal Procedure Code 1898.

Paragraph No.3. Powers to impose restrictions on movements etc. The Civil Authority may by order in writing direct that any foreigner shall xxx comply with such conditions as may be specified in order in respect of (a) his place of residence (b) his movements (c) his association with any person or class of persons specified in order and (d) his possession of such articles as may be specified in order".

You should note that as a " Civil Authority " your powers of restriction should be used against German Nationals only and powers of detention against German suspects only. Full instructions regarding the restrictions to be imposed on German Nationals (i.e. women and children left at liberty after the arrest of all adult male German subjects) have already been given to you in my letter quoted above.

So far as the detention of German suspects is concerned, all adult male German subjects in Mysore should be will already have been arrested and interned, so that the term " suspect " can hereafter only be applied to a German female or child coming within the scope of paragraph 15(3) of the Provisional Instructions for the Control of Foreigners in War.

My dear Kesavaiengar.

I am desired to say that in view of the uncertainity of the international situation, Italian and Japanese subjects are not for the present being regarded as potential enemies. Restriction of departure under the Foreigners Order is therefore being retained only in respect of German nationals and other individuals of other nationalities about whom definite suspicions exist. The Central Government has also issued instructions to officers in British India asking them to be particularly careful that orders for arrest of aliens in the event of war should be confined to subjects of the power or powers actually named in the war telegram.

My dear Kesavaiengar.

I am desired to say that precautionary measures are now being adopted against Germany and Italy. Italy's position has not yet been declared publicly and therefore it is most important that no action should be taken at present which could be considered provocative by Italy. The Resident desires to stress the importance of reticence in regard to the precautionary arrangements owing to the prejudice likely to be caused to the general interests of the Empire by premature local demonstrations.

2. The Resident will be glad if the Government of Mysore would take such preliminary action in regard to their State Forces, Police, etc. as they may consider necessary.

3. It is requested that telegrams on ordinary business should be cut down to the minimum, since the Indian telegraphic system will be heavily loaded.

My dear Kesavaiengar,

I am desired to say that the policy of Government requires that the utmost care should be taken at present to avoid action which might provoke the Italian and Japanese Governments or influence them towards changing their present declarations of neutrality.

2. Nevertheless, from the security point of view, nationals of these two Powers must inevitably be regarded with suspicion. The fact that Italy and Japan have not immediately declared war on the side of Germany, does not in itself make them any more friendly towards Great Britain.

3. In India there is reason to believe that some nationals of both Italy and Japan are actively engaged on espionage work. There are reasons also for believing that, with the removal of male German subjects to internment camps, the responsibility for hostile activities subversive to the internal peace of India and to her defence plans may have now passed in some degree to neutrals favourably disposed towards Germany and to shorned British subjects. In the case of Japanese, a further ground for regarding them with suspicion exists in the expansionist policy of Japan for creating a "New Order in Asia".

4. It is therefore desirable that the activities

of Italians and Japanese in India should be kept under close observation by secret intelligence means. It is equally essential however that the methods adopted should be really secret and unobtrusive and that no executive action should be taken against Italian or Japanese subjects in connection with suspected propaganda or espionage activities without fully satisfactory evidence.

5. The Resident will be grateful if the Government of Mysore will co-operate in taking similar action so far as Italian and Japanese in the Mysore State are concerned. Where executive action is considered desirable, will you please consult this Residency first and unless the delay is inadvisable we will refer the matter for the advice of the Government of India.

Yours sincerely,

My Dear Raghavachar,

In continuation of my letter No.F.106/1940 dated the 16th May 1940, to the Chief Secretary to the Government of Mysore, I am desired to say that the Government of India consider that the present situation justifies the following steps, which have been taken in the Civil and Military Station and the Resident would be grateful if the Government of Mysore would take similar action.

First If not already done instructions should be issued to make preparations indicated in paragraph A (1) (a), (b), (d) and (e), C (1) (a) and C (3) (a) of paragraph 25 of the Provisional Instructions for the Control of Foreigners in War, a copy of which is in the possession of the Government of Mysore and their Inspector General of Police.

Second Instructions for unobtrusive surveillance of Italian subjects should be issued and other special precautions taken against sabotage of key buildings, mines etc.

2. Steps, however, should be avoided which could be construed by Italians as directed against their neutral rights.

3. The above has already been communicated informally to the Assistant Inspector General of Police, in the absence of the Inspector General of Police, Mysore, by the Commissioner of Police, Civil and Military Station.

4. The Government of India have decided that in the event of war with Italy that all male Italians over 16 years of age, (other than priests or missionaries unless there is definite reason to suspect them of prejudicial conduct) should

Sir,

Hay 'S'

I am directed to inform you in continuation of my d.o. F.106/40, dated the 18th May 1940, that in the event of the outbreak of war with Italy, the Government of India consider it desirable that the following additional action should be taken.

2. Italian women other than missionaries should be excluded from places of strategic or national importance such as ports, places where troops are stationed and provincial capitals.

The Resident is getting into communication with the Madras Government with a view to sending Italian women from the Civil and Military Station and Mysore State to a parole settlement as proposed for German women. He is not including in the list the families of the Simonellis or Domenico of Kolar. Meanwhile, on the outbreak of war the same restrictions should be imposed on Italian women as are imposed on German Aryan women.

3. With reference to paragraph 4 of my demi-official letter No.F.106/1940, dated the 18th May 1940, regarding priests and missionaries, the Government of India desire that the greatest possible discrimination should be used in selecting any of these for internment. It is understood that so far there is no evidence against Italian priests or missionaries in the Mysore State but

should

should anything come to light I am to request that this Residency be informed immediately. Meanwhile on the outbreak of war, priests and missionaries should be confined to their places of residence and any reason there may be for partially relaxing these restrictions in particular cases be considered later.

I have the honour to be,

Sir,

Your most obedient servant,

Secretary to the Resident.

Sir,

With reference to your letter No. 5196-5205/C.B. dated 20th May 1940, I have the honour to invite kind reference to the last sentence in the Residency Letter enclosed therein. It is understood that it relates to Italian subjects claiming British nationality or protection solely by reason of their birth. Two such individuals resident in Mysore are :-

1. Mr. C. SIMONELLI, Asst. to Palace Electrician
Born in Ceylon on 30-9-1907.
2. Mr. DOMINICO JOHN MICHEL - Regn. No.38/K.G.F.
born in Champion Reefs on 11-11-1899.

Necessary action may be taken in respect of them.

I may however point out that in the Mysore Defence of India Act, " the Government of His Highness the Maharaja" has to be read wherever references occur to "Central Government etc.". It is not clear ~~whether~~ an order by the Government of Mysore will suffice for their acceptance in an internment camp, if such a contingency should arise.

SIR,

In reply to your letter No.981/C.B. dated the 28th August 1940, I have the honour to state that Mr. Andrea Morlini, at the time of his internment, was in receipt of a salary of Rs.345/- per mensem.

Apart from two daughters who have recently married, he has five children entirely dependent on him viz.,

1. Katherine Morlini - 17 years - Regn No.64/KGF.
2. Anthoni Morlini - 14 "
3. Mary Morlini - 11 "
4. Josephine Morlini - 9 "
5. Ernest Morlini - 7 "

A copy of the representation of Miss Susan Morlini (since married) dated 18-6-40 is enclosed. In the circumstances stated therein, the allowance of Rs.210/- suggested in my letter dated the 15th August does not appear to be excessive.

I have the honour to be,
Sir,
Your most obedient servant,

INSPECTOR-GENERAL OF POLICE IN MYSORE.

STATEMENT OF MISS SUSAN MORLINI.

The petition read over to me is the one I submitted to the Special Superintendent of Police on 14-6-40. My father Mr. Morlini Andrea was a Timber foreman in the Mysore Mines. He was getting a pay of Rs.345/-. He was sending out of his pay on an average Rs.45/- every month to his son Anthony Morlini aged 14 years studying in the St. Joseph's College, Bangalore. He was also sending Rs.60/- to his daughter Katherine Morlini aged about 13 years who was studying in Presentation Convent, Madras. Three other children go to the St. Joseph's Convent in Champion Reefs and Rs.7/8/0 is spent for their fees and the rest of the money suffices for our living here.

My father has no other income except his pay. I, too, have no income and I am depending on my father for my living. Now I am living with my mother and I may kindly be granted any reasonable amount which would be sufficient for my livelihood. My moderate expenses come up to Rs.30/- per month.

SIR,

I am directed to refer to your letter dated the 28th June 1940 and to say that the Government of India consider that the whole Yerrick family, the father, Nichola, the two sons, Charlie and Anthony, and the daughter, Antonette, are all eligible for exemption from restraint on the ground of long residence in India and that there are also other circumstances in their favour, e.g. that the father and one son were members of the Auxiliary Force. They, however, note that the Kolar Gold Field Mining Board considered that the return to the Mines of the majority of their Italian workmen, including the Yerricks, would be undesirable while hostilities continued.

2. I am accordingly to request you kindly to let me know whether, in view of the peculiar circumstances of this case, the Mining Board would on reconsideration still be opposed to the return of the Yerricks to the Gold Field.
